**Subject:** RE: Deadline for Fixing the California Baseline

Good afternoon,

We have completed our analysis on the reports provided by Mike Z and the reports on EnviroStor. We had focused on identifying the facilities that DTSC (EnviroStor list) believes should be on the baseline and were not listed on the EPA baseline to ensure that DTSC is able to get credit for their work. We didn't have enough time to look at the facilities that were on the EPA list and not on EnviroStor, however, the two list were fairly similar.

**Permitting Team**, please review the data for accuracy and recommend to Mike Z. if these sites should be **ADDED** to the EPA list or not. We can schedule a new upload of data to RCRAInfo to occur on Thursday.

#### 1. Sites on EnviroStor list and NOT on EPA's INITIAL BASELINE Report

EPA ID	PROJECT NAME	UNIT SEQ	MAX LEGAL OPR STATUS	IN RCRA	MAX RCRA STATUS
CA2170023152	NAVAL AIR WEAPONS STATION CHINA LAKE	21	EMOP	Yes

**Subject:** Deadline for Fixing the California Baseline

Dear DTSC,

I received a call from my HQs yesterday and they need us to finish fixing the California Baseline by next week.

The deadline to do all this was Oct 1<sup>st</sup>, 2013, so we are way late and its effecting what they are able to do nationwide.

They need to run certain reports and the California baseline fixes are holding them up.

Let's have an internal deadline to have it done by COB Wednesday and do an upload on Thursday and check the upload by Friday.

Attached are the Excel files that show what the California baseline 2014-2018 in RCRAInfo.

Please use these files to reflect what you would like the baseline to be.

Thank you,
